## INFORMATION

Robert Winer, M.D. is a board-certified neurologist, psychiatrist, psychotherapist, and psychopharmacologist in practice since 1983 after completing his neurology residency at the University of Pennsylvania. Dr. Winer also completed a fellowship in psychopharmacology at University of Pennsylvania where he worked on the National Institute of Mental Health's Collaborative Program on the psycho-biology of depression and at the Lithium Clinic of the Affective Diseases Research Unit. Dr. Winer has also been an investigator in drug trials for medications used in dementia, headache, and epilepsy. His areas of clinical expertise are neurology, psychopharmacology, Jungian-oriented depth therapy, and neuropsychiatry. Dr. Winer is the President of the C.G. Jung Center of Philadelphia, an organization that for nearly twenty years has provided quality psychological education to the public.

### Initial exams

(1) Neuropsychiatric evaluation includes a complete neurologic, psychiatric, and psychopharmacological assessment. I may also include screening examination with other tests.

The total fee is **\$380.00**. I accept most insurances for the neurological portion of \$280.00. You are responsible for any co-pays or deductibles. **I do not accept insurance for the \$100.00 for the psychiatric portion.** The **\$100.00** must be pre-paid and is a non-refundable deposit which holds your examination appointment.

(2) Psychotherapy intake exam and psychotherapy sessions.

The fee is **\$175.00** per session.

I do not accept assignment for psychotherapy insurance benefits. Fees must be paid at the time of the visit. A non-refundable \$100.00 deposit is required before an initial appointment is scheduled. A receipt for service is issued once per month. This may be submitted to your insurance company for consideration of reimbursement. If your insurance requires that a treatment plan to be submitted, there may be an extra charge for this.
